

IPES-3416DSFP

16 10/100TX + 4 100/1000 SFP L2⁺ PoE at/af Industrial Managed Switch w/ enhanced G.8032 Ring

- Support IEEE802.3at/af up to 30W per port
- PoE management incl. Detection and Scheduling
- PTP 1588 v2 supported on fiber ports
- Enhanced G.8032 ring protection < 20ms with easy configuration; Dynamic coupling ring; Aggregation ring*
- Miss-wiring avoidance & Repowered auto ring restore (node failure protection)
- User friendly UI, including auto topology drawing and DDM threshold monitoring with dB values***; Complete CLI
- Support LACP link aggregation, IGMP v3/router port,
 DHCP server & DHCP Option82 for Port&VLAN based

 DHCP distribution, Mac based DHCP server, QoS by VLAN, SSH/SSL, TACAS+*,
 HTTPS, ACL, IPv6, SMS
- Environmental Monitoring for temp., voltage & current**

Lantech IPES-3416DSFP is a high performance L2+ (Gigabit uplink) switch with 16 10/100TX + 4 100/1000M SFP w/16 PoE 802.3af/at Injectors which provides L2 wire speed and advanced security function for network aggregation deployment. It delivers ITU G.8032 enhanced ring recovery less than 20ms including dynamic coupling ring, enhanced mode for easy configuration and aggregation ring*, comprehensive QoS, QoS by VLAN, advanced security including ACL L2/L3, SSH/SSL, Mac based DHCP server, DHCP Option 82, DHCP server, IGMPv1/v2/v3/router port, QinQ* (double tag VLAN) which are important features required in train and large network. It also supports Cisco Discovery Protocol (CDP) and LLDP for Ciscoworks to detect the switch info and show on L2 map topology.

Compliant with 802.3af/at standard, the Lantech IPES-3416DSFP is able to feed each PoE port up to 30 Watts@54 VDC providing the connected PD devices. Lantech IPES-3416DSFP supports advanced PoE management including PoE detection and scheduling. PoE detection can detect if the connected PD is hang up then restart the PD; PoE scheduling is to allow pre-set power feeding schedule upon routine time table. Each PoE ports can be Enabled/disabled, get the voltage, current, Watt, and temperature info displayed on WebUI.

Lantech IPES-5416DSFP features hardware-based PTP IEEE1588 v2 function which can allow 4 100/1000 SFP uplinks to synchronize the network with precise accuracy (under 1µs). It has RTC (Real Time Clock) inside that can keep track of current time

The IPES-3416DSFP also embedded several features for stronger and reliable network protection in an easy and intuitive way. When the pre-set ring configuration failed or looped by miss-wiring, Lantech IPES-3416DSFP is able to alert with the LED indicator and send out an email, traps or a SMS text. Repowered auto ring restore function (node failure protection) ensures the switches in a ring to survive after power breakout is back. The status can be shown in NMS when each switch is back. This feature prevents the broken ring and keep ring alive without any re-configuration needed. Loop protection is also available to prevent the generation of broadcast storm when a dumb switch is inserted in a closed loop connection.

DHCP option 82 and relay agent function (port&vlan based DHCP distribution) can offer the same IP address on port base or vlan base where there is need to replace the new device connecting to Lantech switches to avoid any network disruption. The built-in DHCP Option 82 server offers the convenience of police setting on the switch. Mac based DHCP server function assigns an IP address according to its MAC address to include

dumb switches in DHCP network.

The user friendly UI, innovative auto topology drawing and topology demo makes IPES-3416DSFP much easier to get hands-on. The switch also equips the RTC (real time clock) which can keep track of time always. The IPES-3416DSFP supports DMI interface that can correspond with DDM SFPs (Digital diagnostic monitor) to display the five parameters in Lantech's UI, including optical output power, input power, temperature, laser bias current and transceiver supply voltage***. The TX power/RX power raw data is automatically converted to dB values for installer, making it easier to calculate the fiber distance. The complete CLI enables professional engineer to configure setting by command line.

Lantech IPES-3416DSFP features enhanced G.8032 ring which can be self-healed in less than 20ms for ring/chain topologies which covers dynamic coupling ring & aggregation ring* protection. The innovative auto-Ring configurator (auto mode) can calculate owner and neighbor in one step. The enhanced mode and dynamic coupling ring configuration have never been easier. It supports MSTP that allows RSTP over Vlan for redundant links. The ITU G.8032 Ring and RSTP can be co-existed in the same switch with different ports for the most flexible protection.

The configuration file of Lantech IPES-3416DSFP can be exported in text file so that it can be edited and configured back to switch with ease for mass deployment. The factory reset button can restore the setting back to factory default and built-in watchdog design can automatically reboot the switch when CPU is found dead.

QoS by VLAN can allow switch to tag QoS by VLAN regardless the devices acknowledge QoS or not in which greatly enhance

the bandwidth management in a network.

The IPES-3416DSFP DIDO function can support additional open/close physical contact for designate applications besides Port / Power events, for example, DIDO function can trigger alarm if the switch was moved or stolen. In case of events, the IPES-3416DSFP will immediately send an email & SMS text message to pre-defined addresses as well as SNMP Traps out. It provides 2DI and 2DO while disconnection of the specific port was detected; DO will activate the signal LED to alarm. DI can integrate the sensors for events and DO will trigger the alarm while sending alert information to IP network with email and traps.

The optional environmental monitoring can detect switch overall temperature, voltage and current where can send the SNMP traps, email and SMS alert when abnormal.

The Lantech IPES-3416DSFP is designed with dual power supply at 48VDC. Featured with relay contact alarm function, the IPES-3416DSFP is able to connect with alarm system in case of power failure. The IPES-3416DSFP also provides \pm 4000V EFT and \pm 6000V ESD protection, which can reduce unstable situation caused by power line and Ethernet.

Lantech IPES-3416DSFP features high reliability and robustness coping with extensive EMI/RFI phenomenon, environmental vibration and shocks usually found in factory, substation, steel automation, aviation, mining and process control. It is the best solution for Automation, transportation, surveillance, Wireless backhaul, Semi-conductor factory and assembly lines.

The -E model can be used in extreme environments with an operating temperature range of -40°C to 75°C.

FEATURES & BENEFITS

- 16 10/100TX + 4 100/1000M SFP w/16 PoE 802.3af/at
 Injectors (Total 20 Ports Switch)
- IEEE 1588 PTP v2 (under 1µs) on fiber ports
- Embedded 16 PoE Injectors IEEE802.3af/at function to feed power up to 30W@54V; 15W @ 48V per port for active operation
- PoE management including PoE detection and scheduling for PD (power devices)
- Back-plane (Switching Fabric): 11.2Gbps
- 16K MAC address table
- DDM to support SFP diagnostic function***
 - Automatically convert the raw data into dB values for TX power/RX power, making it easier to measure the fiber distance
- 9KB Jumbo frame supported on all ports
- User friendly UI, auto topology drawing, topology demo, complete CLI for professional setting
- Enhanced G.8032 Ring protection in 20ms < 256 switches
 - Support various ring/chain topologies, including dynamic coupling ring& aggregation ring*

- Enhanced G.8032 ring configuration with ease
- Auto ring configuration(auto mode) for single ring
- Co-exist with RSTP on different ports
- Aggregation ring for ring redundancy and bandwidth combination*
- Provides EFT protection ±4000 VDC for power line.
- Supports ±6000 VDC Ethernet ESD protection
- LACP load balancing to distribute the load*
- Built-in RTC (Real Time Clock) to keep track of time
- Supports IEEE 802.1p Class of Service, per port provides 8 priority queues Port base, Tag Base and Type of Service Priority
- IEEE 802.1d STP, IEEE 802.1w RSTP,802.1s MSTP
 VLAN redundancy
- 4K 802.1Q VLAN, Port based VLAN, GVRP**, QinQ*
- Supports IEEE 802.1ab LLDP, Cisco CDP; LLDP info can be viewed via Web/ Console/ Lantech[™]
 InstaConfig**/ Lantech[™] InstaView**
- DHCP server / client / DHCP Option 82 relay / DHCP
 Option 82 server for Port&Vlan based DHCP

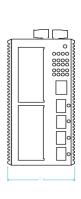

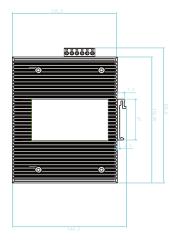

distribution

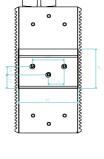

- Mac based DHCP server to assign IP address that includes dumb switches in DHCP network
- **Bandwidth Control**
 - Ingress packet filter and egress rate limit
 - Broadcast/multicast packet filter control
- Relay alarm output system events
- Miss-wiring avoidance
 - I FD indicator
 - Email, traps, or SMS notification
- Repowered auto ring restore
 - Ensure the switches in a ring to survive after power breakout is back
 - The status can be shown in NMS when each switch is back
- TFTP/HTTP firmware upgrade; Lantech[™] InstaConfig** for multiple upgrade
- System Event Log, SMTP Email alert, SMS mobile (text) and SNMP Trap for alarm support; 32 RMON counters
- Security
 - SSL/SSH/ACL L2&L3
 - Port Security: MAC address

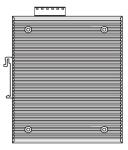

- entries/Filter/MAC-Port binding
- IP Security: IP address security management to prevent unauthorized intruder.
- Management access control with priority
- Login Security: IEEE802.1X/RADIUS
- HTTPS for secure access to the web interface
- Static multicast forwarding forward reversed IGMP flow (MVR) with multicast packets binding with ports for IP surveillance application
- Multicast static route for non- IGMP camera to prevent flooding; IGMP router port to assign query in ring and for reversed multicast video flow
- Multicast VLAN registration* for metro video
- IGMPv1,v2,v3 with Query mode for multi media
- Factory reset button to restore setting to factory default
- Watchdog design to auto reboot switch CPU is found dead
- Optional environmental monitoring for system input voltage, current, ambient temperature
- Supports DIDO (Digital Input/Digital Output)
- IP30 metal housing with DIN rail and Wall-mount** design

DVDO Operating Humidity Operating Temperature Storage Temperature Power Supply PoE Budget PoE pin assignment Power Consumption Case Dimension Weight Installation	Per unit: Power 1 (Green), Power 2 (Green), P-Fail (Red) Ethernet port: Link/Activity (Green), Speed (Green); Mini-GBIC: Link/Activity (Green) 2 Digital Input (DI): Level 0: -30-2V / Level 1: 10-30V Max. input current:8mA 2 Digital Output(DO): Open collector to 40 VDC, 200mA 5% ~ 95% (Non-condensing) -20°C-60°C / -4°F-140°F (Standard model) -40°C-75°C / -40°F-167°F(-E model) -40°C-85°C / -40°F-185°F 48VDC 480W for 45-56V input (55V input is recommended for 802.3at 30W applications) RJ-45 port # 1-#16 support IEEE 802.3at/af End-point, Alternative A mode. Per port provides 30W at 54-56VDC/15W at 48V-56VDC. Positive (VCC+): RJ-45 pin 1,2. Negative (VCC-): RJ-45 pin 3,6. 10W Metal case. IP-30, 74 (W) x 135 (D) x 152 (H) mm 1000 g DIN Rail and Wall Mount** Design FCC Class A, CE EN61000-6-2, CE EN61000-6-4, CE EN61000-4-2, CE EN61000-4-3, CE EN61000-4-4,	LACP LLDP CDP Environmental Monitoring** VLAN IPv6/4 Spanning Tree Quality of Service Class of Service QoS by VLAN IP Security Login Security Port Mirror	LACP Port Trunk: 8 Trunk groups/Maximum 16 trunk members Aggregation ring for ring redundancy and bandwidth combination* Supports LLDP to allow switch to advise its identification and capability on the LAN Cisco Discovery Protocol for topology mapping System status for input voltage, current and ambient temperature to be shown in GUI and sent alerting if any abnormal status(-M models) Port Based VLAN IEEE 802.1Q Tag VLAN (256 entries)/ VLAN ID (Up to 4K, VLAN ID can be assigned from 1 to 4096.) GVRP** (256 Groups)**, QinQ Present Supports IEEE802.1d Spanning Tree and IEEE802.1w Rapid Spanning Tree, IEEE802.1s Multiple Spanning Tree The quality of service determined by port, Tag and IPv4 Type of service, IPv4 Differentiated Services Code Points - DSCP Support IEEE802.1p class of service, per port provides 8 priority queues Tagged QoS by VLAN for all devices in the network Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder.

	Management access control with priority		
	256 Policy based Access Control List		
	SSL/ SSH for Management		
	HTTPS for secure access to the web interface		
	TACACS+ for Management Authentication*		
IGMP	Support IGMP snooping v1,v2,v3; Supports IGMP static route; 256 multicast groups; IGMP router port; IGMP query; GMRP**		
MVR	Static multicast forwarding forward reversed IGMP		
	flow (MVR) with multicast packets binding with ports		
	for IP surveillance application		
Bandwidth Control	Support ingress packet filter and egress packet limit. The egress rate control supports all of packet type.		
Control	Ingress filter packet type combination rules are		
	Broadcast/Multicast/Flooded Unicast packet,		
	Broadcast/Multicast packet, Broadcast packet only		
	and all types of packet.		
	The packet filter rate can be set an accurate value		
	through the pull-down menu for the ingress packet filter and the egress packet limit.		
RTC	Built-in Real Time Clock to keep track of time always		
Flow Control	Supports Flow Control for Full-duplex and Back Pressure for Half-duplex		
System Log	Supports System log record and remote system log server		
SMTP/Text SMS	Supports SMTP Server and 8 e-mail accounts for receiving event alert; can send SMS text alert via mobile		
Relay Alarm	Provides one relay output for port breakdown, power		
	fail and alarm.		
	Alarm Relay current carry ability: 1A @ DC24V		
Protection	Miss-wiring avoidance		
	 Repowered auto ring restore 		

	■ Loop protection	
SNMP Trap	Up to 10 trap stations; trap types including: Device cold start Authorization failure Port link up/link down Dl/DO open/close Typology change(ITU ring) PoE ping failure Power failure Environmental abnormal**	
DHCP	Provide DHCP Client/ DHCP Server/DHCP Option 82/Port based&VLAN based DHCP distribution (DHCP relay agent)	
Mac based DHCP	Assign IP address by Mac that can include dumb	
Server	switch in DHCP network	
DNS	Provide DNS client feature and support Primary and Secondary DNS server.	
SNTP	Supports SNTP to synchronize system clock in Internet	
Firmware Update	Supports TFTP firmware update, TFTP backup and restore; HTTP firmware upgrade; Lantech TM InstaConfig** for multiple upgrade	
Configuration upload and download	Supports text configuration file for system quick installation; Support factory reset button to restore all settings back to factory default; USB for auto restore/backup	
lfAlias	Each port allows an alphabetic string of 128-byte assigned as its own unique name via the SNMP or CLI interface	

ORDERING INFOMATION

■ IPES-3416DSFP......P/N: 8350-796

16 10/100TX PoE at/af up to 30W + 4 100/1000M SFP L2+ Managed Industrial PoE Switch; -20°C to 60°C; 48VDC power input

■ IPES-3416DSFP-E......P/N: 8350-797

 $16\,10/100TX\,PoE\,at/af\,up\,to\,30W\,+4\,100/1000M\,SFP\,L2+\,Managed\,Industrial\,PoE\,Switch;\,-40^{\circ}C\,to\,75^{\circ}C;\,48VDC\,power\,input\,Managed\,M$

■ IPES-3416DSFP-M......P/N: 8350-798

16 10/100TX PoE at/af up to 30W + 4 100/1000M SFP L2+ Managed Industrial PoE Switch w/environmental monitoring; -20°C to 60°C; 48VDC power input

■ IPES-3416DSFP-M-E......P/N: 8350-799

16 10/100TX PoE at/af up to 30W + 4 100/1000M SFP L2+ Managed Industrial PoE Switch w/environmental monitoring; -40°C to 75°C; 48VDC power input

OPTIONAL ACCESSORIES

55VDC DIN Rail Power for 802.3at Applications

■ AD1240-48S-5 48~56VDC, 4.3A, Wide AC Input, Build-in fan Cooled, DIN Rail or Wall Mounted, RoHS, Operating Temp.

-20°C~50°C

(ambient, derating each output at 2.5% per degree from $50^{\circ}\text{C} \sim 70^{\circ}\text{C}$)

■ AD1360-48S-5 48~56VDC, 6.5A, Wide AC Input, Build-in fan Cooled, DIN Rail or Wall Mounted, RoHS, Operating Temp.

-20°C~50°C

(ambient, derating each output at 2.5% per degree from 50°C ~ 70°C)

■ AD1500-48S-5 48~56VDC, 9A, Wide AC Input, Build-in fan Cooled, DIN Rail or Wall Mounted, RoHS, Operating Temp. -20°C~50°C

(ambient, derating each output at 2.5% per degree from 50°C ~ 70°C)

Mini GBIC (SFP)

8330-162	MINI GBIC 1000SX (LC/0.5km) Transceiver	8330-166	MINI GBIC 1000XD (LC/50km) Transceiver
8330-163	MINI GBIC 1000SX2 (LC/2km) Transceiver	8330-169	MINI GBIC 1000XD (LC/60km) Transceiver
8330-165	MINI GBIC 1000LX (LC/10km) Transceiver	8330-167	MINI GBIC 1000ZX (LC/80km) Transceiver
8340-0591	MINI GBIC 1000LHX (LC/40km) Transceiver	8330-170	MINI GBIC 1000EZX (120km) Transceiver

Industrial PoE Managed Switches

8330-168	MINI GBIC 1000T (100m) Transceiver	8330-180	LTSFP-1000BX-40KM Transceiver (WDM 1310)
8330-061	100Base LX 30KM, Single-mode, LC Transceiver	8330-182	LTSFP-1000BX-40KM Transceiver (WDM 1550)
8330-060	100Base FX 2KM, Multi-mode, LC Transceiver	8330-181	LTSFP-1000BX-60KM Transceiver (WDM 1310)
8330-188	LTSFP-1000BX-10KM Transceiver (WDM 1310)	8330-183	LTSFP-1000BX-60KM Transceiver (WDM 1550)
8330-189	LTSFP-1000BX-10KM Transceiver (WDM 1550)	8330-184	LTSFP-1000BX-80KM Transceiver (WDM 1490)
8330-186	LTSFP-1000BX-20KM Transceiver (WDM 1310)	8330-185	LTSFP-1000BX-80KM Transceiver (WDM 1550)
8330-187	LTSFP-1000BX-20KM Transceiver (WDM 1550)		

All SFP ended with D are with Diagnostic function

Wall Mount Bracket

MBEAR001 Wall mount bracket for 74.15(W) x 114.3 (D) x 152 (H) mm Industrial switches
