1.0 About this Installation Manual

Please read this installation manual before you start the installation. It will help you with your software installation and provides essential information.

2.0 TH AMS Communication Components

TACC includes the HART Over PROFIBUS technology.

HART Over PROFIBUS works with AMS Device Manager to provide a communication solution for customers with HART instruments connected to PROFIBUS over Remote I/Os.

2.1 Parts of the TH AMS Communication Components

The TH AMS Communication Components includes the following:

- HART Over PROFIBUS

3.0 System Requirements

3.1 General

There are 50 MB free hard disk space required.

3.2 Operating Systems

The following 32-bit operating systems (English-language version) are supported:

Operating System	Version
Windows Server 2003	Standard Edition Service Pack 2
Windows Server 2003 R2	Standard Edition Service Pack 2
Windows 7	Professional/Enterprise Service Pack 1
Windows 8	Professional/Enterprise Edition
Windows Server 2008	Standard/Enterprise Edition Service Pack 2

The following 64-bit operating systems (English-language version) are supported:

Operating System	Version
Windows 7	Professional/Enterprise Service Pack 1
Windows 8	Professional/Enterprise Edition
Windows Server 2008	Standard/Enterprise Edition Service Pack 2
Windows Server 2008 R2	Standard/Enterprise Edition Service Pack 1
Windows Server 2012	Standard Edition

3.3 AMS Device Manager

AMS Device Manager 13.0 with AMS ValveLink SNAP-ON application 12.1 is supported.

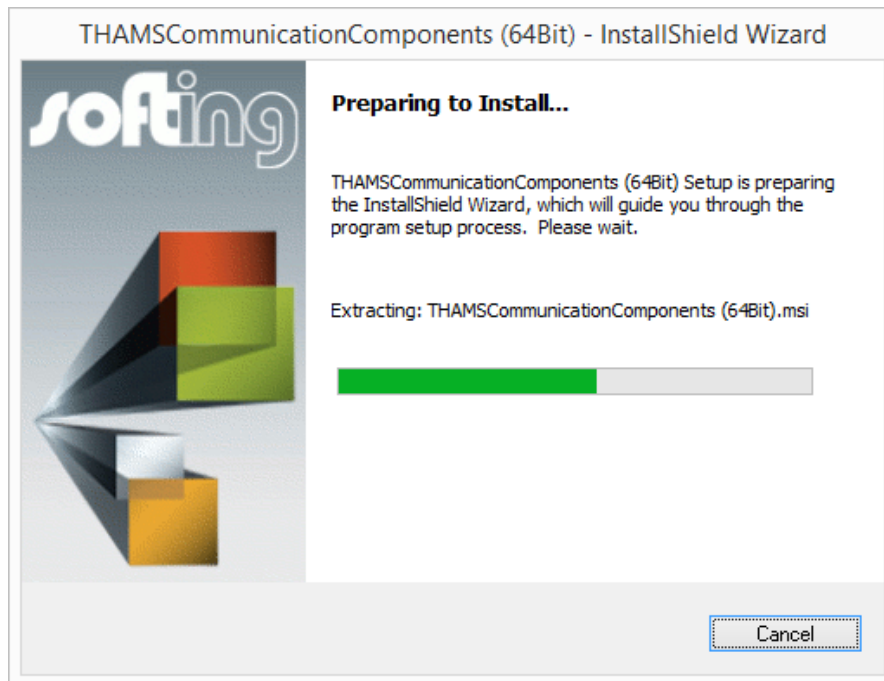

4.0 TACC Installation

Important: AMS Device Manager must be installed before installing the TACC software.

For tips and notes for hardware use and parameterization, refer to the HART Over PROFIBUS user manual. This document will be available in PDF format after installation.

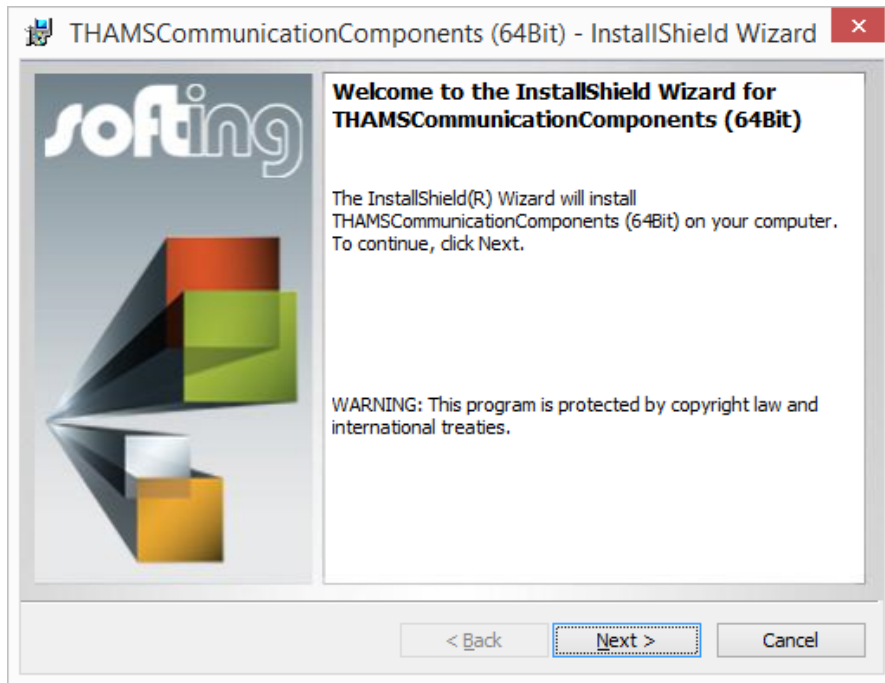

Step 1. Insert the TACC installation CD into the CD drive of your PC.

Note: If the installation process does not start automatically, open My Computer and select the CD drive. Double-click SETUP.EXE to start the installation process and follow the instructions.

Step 2. Select **Next** to install the TACC application on your system.

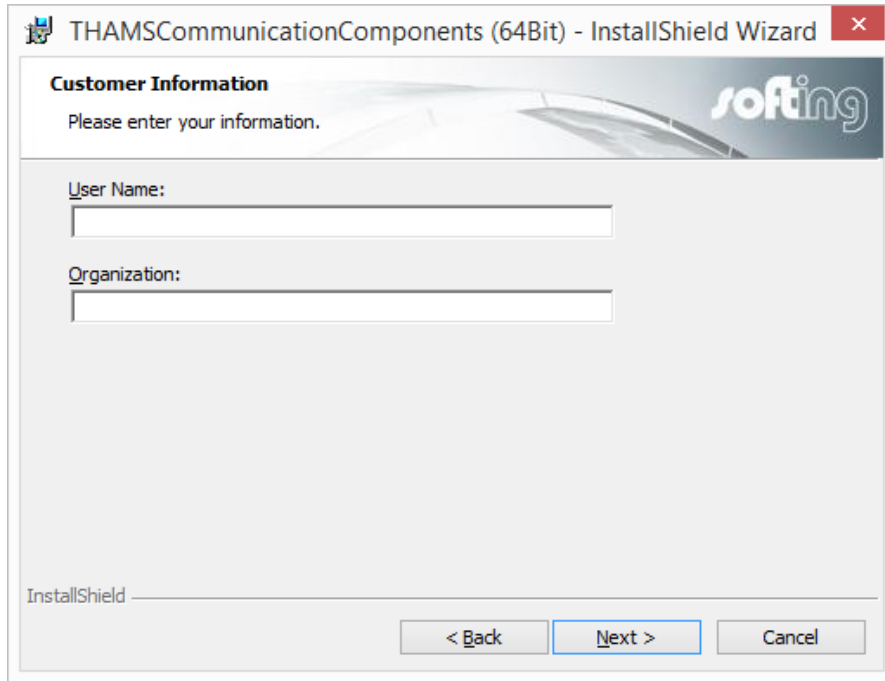

Note: Any earlier versions of TACC will be uninstalled automatically.

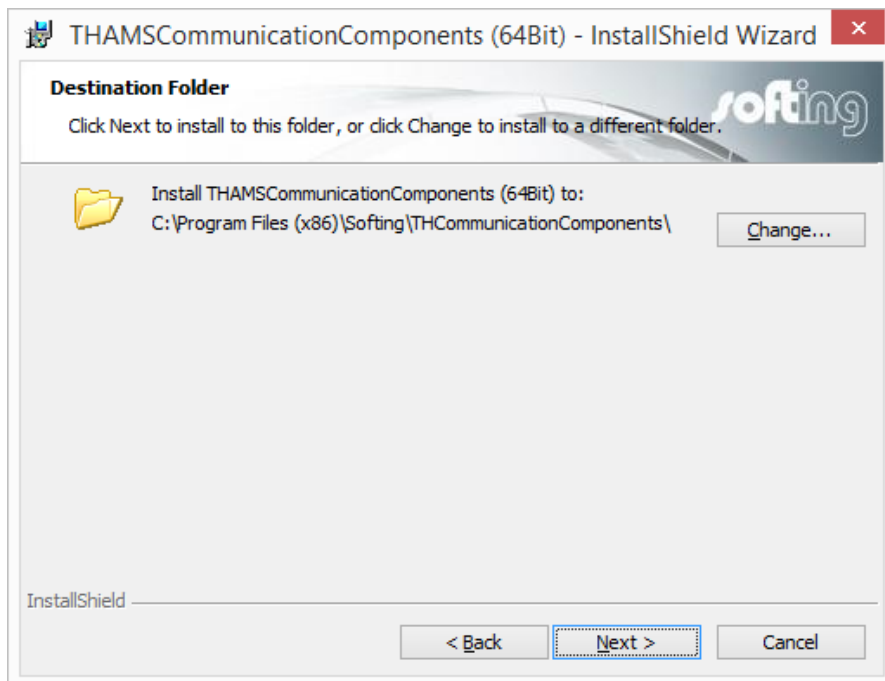

Step 3. Please read the license agreement carefully, click on **I accept the terms in the license agreement** and then **Next**.

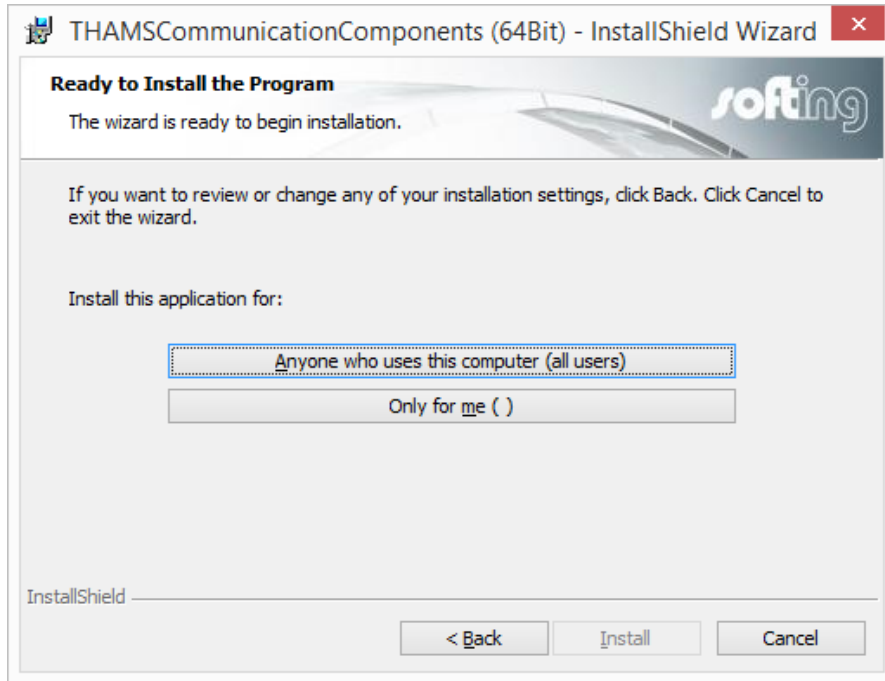

Step 4. Enter a user name and your organization name. Enter a user name for the user that will be operating the application. Click **Next**.

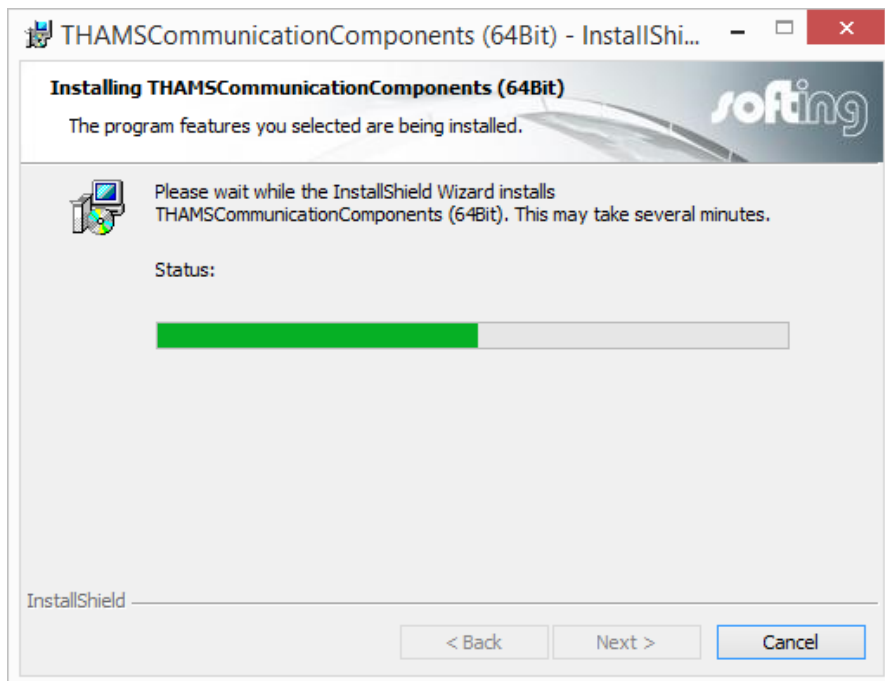

Step 5. You can install the program into the default folder or click **Change** to select another location. Click **Next** to continue.

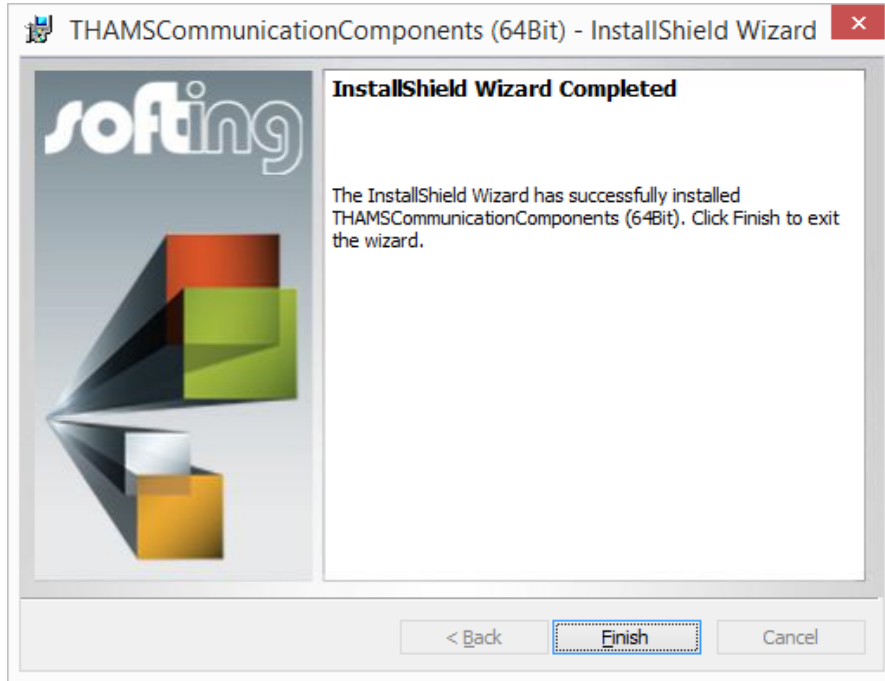

- Step 6. Click **Back** to change your installation settings. Decide to install the application for **Anyone who uses this computer** or **Only for me**. Click **Install** when all settings are correct.

The progress of the installation is displayed by the status bar.

Step 7. After installation of the TACC application completes, click **Finish** to close the wizard.

Step 8. You must restart your computer to save the installation settings. Click **Yes** to restart your computer now, or **No** to manually restart your computer later.
